Praise Olaoye

Full Stack Developer

himpraise571@gmail.com • satoru707.vercel.app • linkedin.com/in/thepraiseolaoye • github.com/satoru707

PROFESSIONAL SUMMARY

Full-stack developer with 1.5+ years of experience building scalable web applications. Strong in API design, real-time systems, and AI integration. Freelances while pursuing a B.Sc. in Computer Science at Obafemi Awolowo University.

PROJECTS

TimeForge – AI-Powered Goal Tracking App
Solo Project – Full Stack • GitHub
- Developed a productivity app enabling users to set goals, track progress, and receive AI-generated insights.
- Integrated the Gemini API for smart recommendations tailored to goal behavior and deadlines.
- Built a deadline-based notification system using scheduled asynchronous backend logic.

CollabCode – Real-Time Code Collaboration Platform: In Progress
Solo Developer – Full Stack (with light collaboration) • GitHub
- Engineered a real-time code editor with Monaco andSocket.IO
- Implementing live cursor sharing and real-time code synchronization.
- Integrated OAuth (Google & GitHub) with Auth0 for seamless authentication.
- Architecting real-time infrastructure for handling high-frequency sync and shared editing.

FREELANCE WORK

Full Stack Developer – Freelance Web App: In Progress
Task-nest-blue.vercel.app • Remote · 2025

- Building a complete web application from scratch, handling both frontend and backend responsibilities.
- Designed APIs, integrated authentication, and managed database models to meet client requirements.
- Led and mentored a collaborator to deliver the project faster while retaining full architectural control.

TECHNICAL SKILLS

- JavaScript (Node.js, React), SQL, Tailwind CSS, Express.js, PostgreSQL, Vercel
- Scalable API Architecture, Debugging & Performance Tuning, Gemini API , Socket.IO
